Sunday Car Service to East Kildonan

Public Utilities Commissioner Robson on Wednesday issued an order for the Winnipeg Electric Railway Company to instal a 10 minute car service from the corner of Main Street and Redwood Avenue, through East Kildonan, and to operate the same on Sundays to Trent avenue, in conjunction with the service now in operation to the limits of the municipality. This service becomes effective on Sunday, April 12. Last year, upon representation being made to the commissioner by residents in Kildonan for a Sunday car service, the street car company was ordered to put on a 10 minute service to the switch at Linden Avenue. The schedule was maintained, but it has been found that the patronage does not warrant its continuance.
