

East Kildonan Sewer and Plumbing Installation Loans 1920 – 1921

As a secondary part of the East Kildonan Housing Scheme that began after World War One, residents of East Kildonan could receive loans to install sewer connections plumbing connections and fixtures in existing homes. The money originated through the Federal Government to the Provincial Governments and was administered by municipalities such as East Kildonan. Unlike the regular housing loans the money was to be repaid over a period of 10 years rather than 20 years and the money was paid back on a yearly basis rather than monthly one. East Kildonan received .5% of the interest in the first 2 years for the loans made in 1920 and .5% of the interest for the first year for the loans made in 1921.

Address	(Loan Amount)	(Interest Rate)	(Yearly Payment)	(Year)
